

"INVISIBLE UNIVERSE"

"I want us all to hear how the music of the spheres resonates with the music of our hearts."

Get launched on a thrilling, emotional and empowering journey that extends from the farthest reaches of space right into our individual lives. No one can better serve as inspirational teacher and guide on this very personal expedition to humanity's place in the universe than Dr. Fiorella Terenzi, who performed the first experiment in acoustic astronomy, translating radio waves from galaxies into sound and then into music.

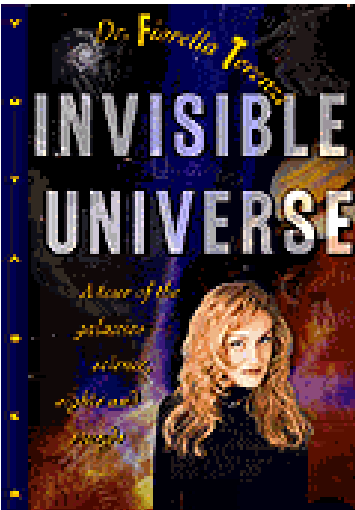

Dr. Terenzi shows that most of us have heretofore contemplated only portions of the majesty of the cosmos. In her lecture, she presents clear and accessible scientific facts, then goes much farther. Through her telescope, Dr. Terenzi brings to life an INVISIBLE UNIVERSE where the hidden galactic core becomes a metaphor for self-knowledge. This entertaining, informative multimedia lecture by Dr. Terenzi, includes sounds from radio galaxies, pulsars, the Sun and an x-ray black hole, movies, space poems and a spectacular celestial show accompanied by her music.

With joyful and contagious excitement, Dr. Fiorella Terenzi imparts a kind of heavenly knowledge that will enrich, entertain, excite, enthrall and remain with you whenever you look up at the night sky.

Setup Requirement:

Audio/Video connection from Macintosh G3 Powerbook computer to mixer/PA and video projector, vocal microphone and CD player.

Internationally renowned astrophysicist, author and recording artist, Dr. Fiorella Terenzi has a doctorate in physics from the University of Milan. She has conducted research at University of California, San Diego and acted as Director of New Media at the Space Transit Planetarium, Miami Museum of Science (USA). Her acclaimed best-selling CD-ROM "Invisible Universe", her music CD "Music from the Galaxies" and books "Heavenly Knowledge", "Musica Dalle Stelle", "Der Kosmos ist weiblich" weaves astronomy and music, science and art into a tapestry for the senses.

Two of her songs are featured on the Billboard Top 10 Music Video "The Gate to the Mind's Eye" with Thomas Dolby. She has appeared on CNN, The Wall Street Journal, People, Time, Glamour and lectured at UCSD, Stanford, MIT, and the Smithsonian. Dr. Terenzi's speaking engagements embrace topics such as "Women in Space", "The Business of Space", "Values for a new Civilization" and the popular "Heavenly Knowledge" and "Invisible Universe".

Wall Street Journal

"Look at the stars. Can't you hear them? Now, thanks to Fiorella Terenzi, an astrophysicist and musician, stargazers can peek through a telescope, glance at the Milky Way and listen to the cosmos. ... Initially, Dr. Terenzi kept acoustic astronomy to herself. But now she turned performer, and Earth people are tuning in."
